Perception

Perception (from the Latin perceptio, meaning gathering or receiving) is the organization, identification, and interpretation of sensory information in order to represent and understand the presented information or environment. All perception involves signals that go through the nervous system, which in turn result from physical or chemical stimulation of the sensory system.

Understand

Understanding is a psychological process related to an abstract or physical object, such as a person, situation, or message whereby one is able to think about it and use concepts to deal adequately with that object. Understanding is a relation between the knower and an object of understanding. Understanding implies abilities and dispositions with respect to an object of knowledge that are sufficient to support intelligent behavior.

Conclude & Decision

A position or opinion or judgment reached after consideration. "finally, to sum up," and is used to introduce some final comments at the end of a speech or piece of writing. The phrase *jump to conclusions* means "to come to a judgment without enough evidence." A *foregone conclusion* is an outcome that seems certain. This leads to Decisions, and further leads to actions to achieve desired objective.

The final take away from this is “WRONG PERCEPTION LEADS TO WRONG DECISIONS”

Why are we talking of Perception to Decisions?

The intent of the New Annex SL model of ISO for structuring the standard, has not been fully perceived & concluded in the correct manner – this is what IRCBO is saying after many audits and trainings, globally. Due to this wrong perception which may be due to many reasons, has led to not taking or ignoring correct decisions to implement management systems in right manner. Due to this “Convenience has stepped into Compliance”.

Demystifying series of FREE WEBINARS which IRCBO has been conducting from time to time till date like:

- Demystifying Risk;
- Demystifying Role of IT in Business Continuity;
- Demystifying Annex SL – Role of Preventive Action Vs Risk Management & Objective Setting
- Demystifying Integrated Risk Management

IRCBO shall be announcing these FREE WEBINARS – look out for Events in our website – www.ircbo.solutions
